SKILLS

JavaScript, React.js, Redux, Python, Node.js, Express.js, Flask, Sequelize, PostgreSQL, SQLAlchemy, HTML5, CSS3, Pug, Jinja, Heroku, Git, AWS S3 Upload, Docker, Google Maps API

PROJECTS

Canvas | *(React / Redux, Python / Flask, Javascript, AWS S3 Upload, SQLAlchemy, PostgreSQL, Heroku, CSS3)*

A Fiverr clone, where users can hire freelance artists and create an 'Artist Page' to receive work inquiries.

[Live](#) | [Github](#)

- Designed personalizable 'Artist Pages' with header image to showcase each artist's unique style.
- Connected Flask backend to AWS S3 for image storage and retrieval.
- Utilized React component architecture to efficiently develop new form modals.

Sidewalk Surfers | *(React / Redux, Python / Flask, Javascript, Google Maps API, SQLAlchemy, PostgreSQL, Heroku, CSS3)*

An Instagram clone, for users to find skateboarding spots in the Los Angeles area and share content from these locations.

[Live](#) | [Github](#)

- Integrated Google Maps API with custom map-markers to display the location of each skateboarding spot.
- Leveraged React components to efficiently develop reusable media cards.
- Implemented search bar by filtering users and skateboarding spots for search input and displayed results in a HTML select field.

Hullabaloo | *(React / Redux, Javascript, Express, PostgreSQL, Heroku, CSS3)*

A Bandcamp clone, where users discover comedy podcasts and create their own.

[Live](#) | [Github](#)

- Created a custom event listener for HTML audio player that increments podcast and episode play counts.
- Implemented followers with a following count for podcasts by connecting users and podcasts in a followers database table.
- Designed a dynamic home page to display followed podcasts and / or search results, when either exists.

GoodTunes | *(Javascript, Express, PostgreSQL, Pug, Heroku, CSS3)*

A GoodReads clone, for users to discover and create a collection of their favorite music albums.

[Live](#) | [Github](#)

- Utilized Express backend queries to display albums ordered by ownership count.
- Leveraged Bcrypt for user authentication and password security.

- Implemented a joins table for creating lists of albums connecting to a user and many albums

EXPERIENCE

Set Builder / Carpenter

SF Surface

Oct 2020 - April 2021

- Constructed numerous photoshoot sets for interior and furniture design company, Serena and Lily
- Communicated with team members and stylists to achieve desired end product
